SUBJECT: Weekly Activity Report #29

1. Revision of

On 22 July [] called about the revision [] which deals with assessments. Her call was a follow-up of an inquiry made to [] (DD/P Regulations Control Officer) about two weeks ago. [] said the revision has been snagged for months on the issue of releasing assessment information. Her version is that she, [], and others (not specified) believe requests for assessment information should follow the command line and be rather tightly controlled because of the sensitivity of the information. [], on the other hand (according to []), wants supervisors in DD/P to feel free to talk with him at any time "about their problems." She said she will make a concerted effort to get the regulation published when she returns from leave in about ten days. She was counseled, however, not to stampede publication since the basis for our inquiry was not a desire to expedite things, but simply to learn their status. There may be other aspects to the regulation which require rather deliberate consideration, particularly the views expressed in the IG report.

[] announced that the [] have adopted a 22-month-old daughter.
